

KIRTI VINAY GANORE

Junior Associate | Banking Technology | Java / Backend Developer | Enterprise Reporting & Data

Pune, Maharashtra, India | +91 9403591975 | kirtiganore@gmail.com | [linkedin.com/in/kirti-ganore/](https://www.linkedin.com/in/kirti-ganore/)

Open to opportunities across India and international locations

PROFESSIONAL SUMMARY

Software professional with enterprise experience in banking and financial services technology, currently working as a Junior Associate at Synechron supporting HSBC. Hands-on experience in reporting migration, SAP BusinessObjects, BIRT, data-load monitoring, data validation, reconciliation, UAT, Production support, defect resolution and controlled change management. Strong technical foundation in Java, Spring Boot, REST APIs, SQL, Python, AWS, Git/GitLab and full-stack development. Experienced in translating business reporting requirements into reliable technical outcomes, troubleshooting production issues, validating releases, and collaborating with cross-functional teams.

PROFESSIONAL EXPERIENCE

➤ Synechron Technologies — Junior Associate | Pune, India | June 2025 – Present

Client: HSBC | Team: MSS Agency Lending | Project: MSS SFT CASH AND SYNTHETIC INDIA

- Support enterprise reporting migration by replicating existing SAP BusinessObjects (SAP BO) reports using BIRT while preserving reporting requirements, business logic and output consistency.
- Perform daily data-load monitoring and validation; investigate failures, data discrepancies and downstream reporting issues to support reliable operations.
- Validate migrated reports across UAT and Production environments, including data accuracy, parameters, filters, formatting and expected business behavior.
- Perform data reconciliation and report comparison between SAP BO and BIRT outputs to identify inconsistencies and improve migration quality.
- Troubleshoot reporting and data-load issues, perform initial root-cause analysis and coordinate with technical and business stakeholders for resolution.
- Execute pre-deployment and post-deployment validation to verify report functionality, data integrity and release readiness.
- Raise and track Change Requests (CRs) for validated report migrations and production deployments in line with enterprise change-management processes.
- Provide Production support for scheduled data and reporting activities, contributing to incident resolution, release validation and post-production verification.
- Work within banking/financial-services processes involving enterprise data, reporting controls, security, privacy and controlled Production environments.

➤ Prayanam Industries Pvt. Ltd. — Software Developer Intern | September 2024 – January 2025

- Developed and optimized web applications using React.js and Flask, with a focus on application performance and user experience.
- Integrated APIs for real-time data retrieval and processing and worked with SQLite for data storage and retrieval.
- Implemented AI/NLP-based insights including summarization and sentiment analysis and collaboration in an agile development environment.
- Deployed applications on cloud platforms and gained practical exposure to end-to-end application development.

➤ Enovation Skills — IoT Intern | August 2021 – September 2021

- Gained hands-on exposure to embedded systems, sensors, programming, testing, prototyping and IoT-oriented development.

BANKING & DOMAIN EXPERTISE

Banking Technology: Securities / Financial Services environment, Agency Lending, Securities Financing Transactions (SFT), Cash & Synthetic products, enterprise reporting, data reconciliation, UAT, Production support, change management, release validation, incident troubleshooting, data quality and controlled deployment processes.

Reporting & Operations: SAP BusinessObjects (SAP BO), BIRT, report migration, report validation, data-load monitoring, business-rule validation, discrepancy analysis, downstream reporting support.

TECHNICAL SKILLS

Languages: Java, Python, C, C++

Backend: Spring Boot, Hibernate, REST APIs, Microservices, JDBC

Databases: SQL, MySQL, PostgreSQL, MongoDB, SQLite

Reporting & Data: SAP BO, BIRT, Data Validation, Data Reconciliation, Data Quality, Data-Load Monitoring

Cloud & DevOps: AWS, Docker, Kubernetes, Jenkins, Git, GitLab, Maven, CI/CD

Frontend: React.js, JavaScript, HTML, CSS

AI / Data: Python, NumPy, SciPy, PyTorch, OpenCV, NLP, Prompt Engineering, Claude Agent SDK, Sentiment Analysis, Data Visualization

Core: OOP, Data Structures & Algorithms, Java Collections, SDLC, Agile/Scrum, Troubleshooting, Root Cause Analysis

SELECTED PROJECTS

1. Food Delivery System

Tech: Java 17, Spring Boot, REST APIs, MySQL, Kafka, React.js, Docker, Kubernetes, Jenkins

Developed a microservices-based platform with authentication, restaurant/menu management, order tracking, delivery assignment, notifications and payment workflows; implemented Eureka service discovery, API Gateway, Kafka messaging, containerization and CI/CD.

2. InsightOSINT – AI-Powered OSINT Platform

Tech: React.js, Flask, Python, REST APIs, SQLite, PostgreSQL, NLP, OpenAI API

Built a full-stack platform that aggregates and analyzes information from multiple sources and presents insights through an interactive dashboard with NLP summarization, sentiment analysis, API integrations, and visual analytics.

3. Roopantaran – GAN-Based Face & Hair Swapper

Tech: Python, PyTorch, TorchVision, OpenCV, InsightFace, CUDA

Developed an AI-driven system combining GAN-based face/hair swapping, face detection, segmentation and image/video processing for a dental-anxiety reduction use case.

CERTIFICATIONS

- **AWS Certified Developer – Associate** — AWS
- **AWS Certified Machine Learning Engineer – Associate** — AWS
- **AWS Certified Machine Learning – Specialty** — AWS
- **Claude Certified Architect – Professional** — Anthropic
- **Claude Certified Architect – Foundations** — Anthropic
- **GitLab Certified CI/CD Associate** — GitLab
- **PCAP™ – Certified Associate Python Programmer** — Python Institute
- **HackerRank SQL Intermediate** — HackerRank
- **HackerRank SQL Basic** — HackerRank

EDUCATION

- B.Tech in Computer Engineering — MKSSS's Cummins College of Engineering, Pune | November 2022 – July 2025 | CGPA: 7.1
- Diploma in Electronics & Telecommunication Engineering — Government Polytechnic, Chh. Sambhajinagar | August 2019 – July 2022 | 94.06%
- Secondary Education — Shree Sharda Mandir Kanya Prashala | August 2018 – June 2019 | SSC: 85.00%

LANGUAGES

English (Professional Working) | Marathi (Native/Bilingual) | Hindi | French (Elementary)
